

### **School ID Badges Required to Ride the Bus**

○ Between now and the end of the semester, transportation is making a push to get **all** students to get their ID badges and have them ready to scan on/off the buses every day. We are asking that the campuses communicate this to students the remainder of the semester. Communication to parents will be sent out as well.

○ Beginning **January 10**, students will **not** be allowed to ride the bus in the afternoons without an ID badge. Buses will **not** wait for students to go back into the building to find their badge or make a new one. Buses will pull away at the regular times. Brand new students will need to be given a bus pass until an ID badge can be made (hopefully the day they start on campus). With the help of campus staff, students will not step foot on the bus without a school ID badge (accurate picture).

Below is a list of items students need to be prepping for prior to January 10:

- Make sure they are riding their assigned bus.
- Students will only be allowed to ride assigned bus.
- If you are not sure, give your name to the driver for transportation to check.
- Start scanning ID badges on/off the buses to make sure their ID badge works properly. Drivers will let students know if their badge is not working properly.
- Make sure ID badge has the student's picture on it
- Scratched out pictures will need a new ID badge

In the mornings, students will need to have ID badges ready to scan when they get on the bus. Students without ID badges will be allowed to ride the bus (we want the students in school) but will need to get a new badge prior to boarding the bus in the afternoon. Students will need to ride their assigned bus in the mornings as well.
